About This Game

In Stick Spartans up to four Spartans fight by poking each other with sticks to claim the golden helmet.

Stick Spartans brings fast paced family friendly action to the living room with simplistic and easy to learn controls. Each player controls a Spartan which can run around this confined arena in teams or solo to eliminate the opposing players and rein victorious claiming the golden helmet.

Vey fun game, and perfect to play with friends. And with such a simple easy to grasp concept anyone can pick it up and play. I can also see the possibility of further content to come. e.g customising the helmet your spartan wears, or pehaps even adding different arenas to fight in. Overall it's a really fun game, and I support the developer in all their future projects.. Vey fun game, and perfect to play with friends.
